IML Decoration

Injection Moulding Label means that decoration of the product is inserted into the mould to become a decorated packaging part. We are able to support your complex IML project to scale-up your brand product to the next level.

Orange peel IML

Became IML's most popular variety because its cost efficiency. Suitable for ice cream, margarine or spread.

Transparent IML

It offers the possibility to create a see-through surface on the package. Suitable for ice cream, beverage, confectionary or pet food.

About Us

Thermopak Karya Indonesia is a rigid packaging manufacturer in Indonesia specializing in thinwall injection molding product for food and beverage packaging application as well as pharmaceutical packaging application.

Our experience of more than 20 years in the plastic packaging industry ensures our customer will get the best packaging support for their brands.

For food safety, we will go hand in hand to bring the food industry into a whole new level while assisting the food business owners in improving their packaging system.

Vision :

To be the first choice in providing injection moulding packaging, especially in food & beverage industry.

Mission :

- To provide excellent product quality that serves customers needs
- To ensure on time delivery to support customer supply chain
- To implement the latest technology both in processes & information system to help the company growth
